GOLDEN DAYS CELEBRATION OFFERS TERRIFIC VALUES

GRASS VALLEY: "G. V. Days" is a two-day merchandising bonanza featuring "Golden Values" and sponsored by the Chamber of Commerce for Friday and Saturday, today and tomorrow.

Grass Valley stores are featuring unusual bargains during these festive days. They are giving free tickets to all who enter their stores.

Saturday night, at 7:30 P. M. on Mill Street there will be a drawing and the following prizes will be awarded: A console radio-phonograph, the grand prize given by the Chamber of Commerce (from Bond's); A portable phonograph, donated by the Electric Servant, a pair of lamps, donated by Montre Electric, cameo rings, donated by Bourquin's Jewelry, a model airplane kit, donated by the Hobbyhouse, a bridge set, from the Tore Baby Shop.

Jerry Brust heads the chamber committee charged with developing the novel bargain fiesta. Fred Brady, Secretary-Manager of the Chamber of Commerce, has also been devoting his full energies to the project.

Local publications have been used to full extent by merchants in advertising their special bargains and prices, and this issue of the Nugget Shopper is dedicated primarily to promoting the success of G. V. Days.

Consumer comment, prior to the big two-day event, has been very favorable and great interest has been shown in the remarkably liberal mark-downs and bargain purchases offered by local merchants.

Shoppers are reminded to be sure to ask for their free chances on the console radio and other attractive prizes. Each merchant has a big orange roll of tickets, and everyone who enters the store is entitled to one.

Harleth Brock Heads Nat'l. Guard Co. E

NEVADA CITY: Lientenant Colonel John S. Hawk, commanding officer of 2nd Battalion, 184th Infantry, has assigned 1st Lieutenant Harleth Broke of this city to command Company E, the National Guard Unit recently organized here.

Brock will be assisted by Lieutenant Matt Grigg of Grass Valley and Lieutenant Robert Bonner of Nevada City.

COST OF JAIL FOOD MAY BE RAISED

NEVADA CITY: The board of supervisors Tuesday heard the petition of a committee of restaurant and cafe owners to boost the price of meals provided inmates of the county jail from 50 to 80 cents each.

Members of the committee which included Mark Stanchfield, E. L. Kyle, and Edward Faup told the board that with the present prices for food it would be impossible to provide meals at 50 cents each, a price established many years ago. The board took the request under advisement.

Salaries of the Welfare Department were ordered increased. The director, Keif Melberg's salary was raised to $310 a month.

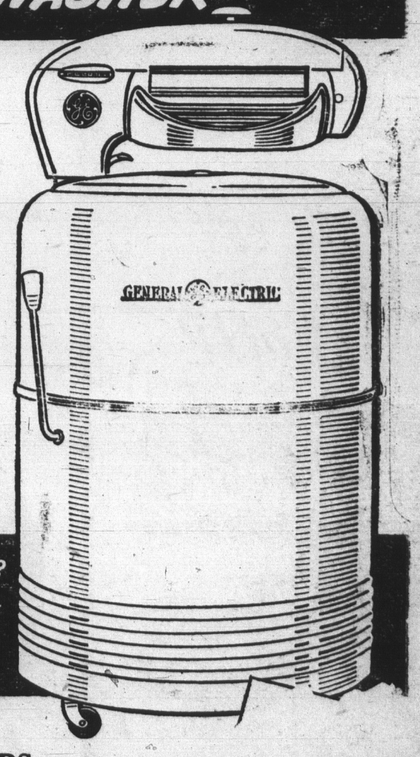
It's FOOTE'S for Golden Values in GENERAL ELECTRIC

"QUICK-CLEAN" WASHING every time...with this GENERAL ELECTRIC WASHER



Ask any woman why she bought a General Electric Wringer Washer and she'll tell you that the BIG G-E gets clothes *really clean!*

Clothes aren't just swished around in this roomy wringer washer. The "three-zone" Activator* tumbles and loosens the clothes . . . forces soap suds into every piece of washing . . . and chases out the most stubborn dirt and soil. It washes clothes quickly and thoroughly—yet is gentle with the finest fabrics.

Come in and let us show you the only washer that has the G-E Activator, the One-Control Wringer, and a Permadrive Mechanism (only four moving parts!) It's built for long, dependable service . . . quiet operation . . . and it gets clothes *clean, clean, clean!*

GENERAL ELECTRIC Home Laundry Equipment

What Other Washer Gives You This, Too?
- Durable balloon rolls
- Permanently Oiled G-E motor
- Self-tilting drainboard
- Full-length protective skirt
- Porcelain enamel tub
- Quick-emptying pump

A NEW BROOM

The old saw "A new broom sweeps clean" has a particularly apt application here in Nevada City. A short time ago, the people elected three new members to the city council.

Soon after they took office, the brooms of the city street crew began busily polishing the streets every morning at 6 A. M.

As a result, our town is developing its own 'new look', a clean and spritely appearance that is extremely gratifying to everyone.

City councilmen have a thankless, payless job. Their reward comes only in a sense of having done their public duty and, perhaps, also in such instances as this, when appreciation of their work is publicly expressed.

Another important achievement of the council is the improvement of the baseball diamond, which is now in prime shape.

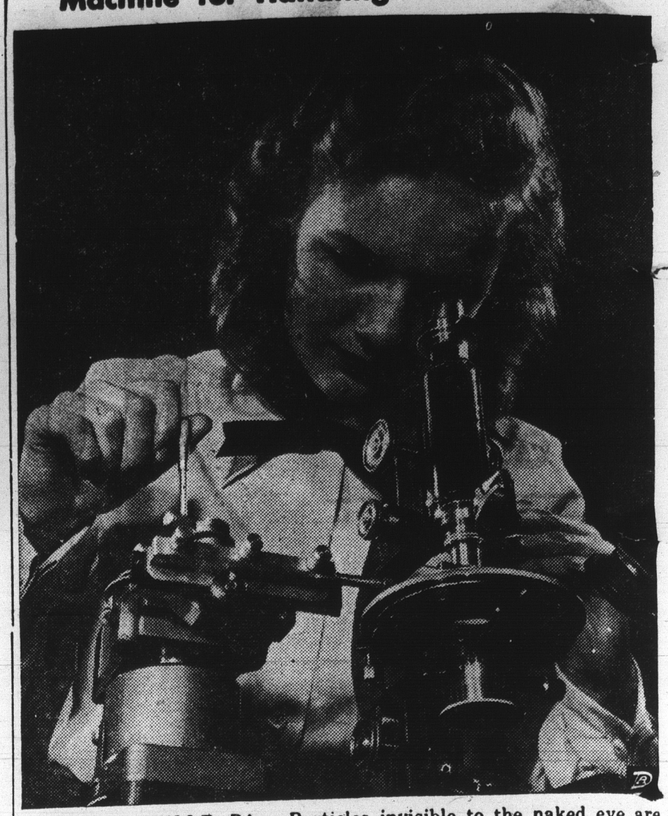
So to new members Harry F. Sofge, Merle Headley, and Thomas H. Taylor, as well as incumbents Arthur Innis and Mayor Albert S. Bates, we say, congratulations on a job well done!

(Note: This is not to be construed as a negative reflection on any former members of the city council, who almost invariably have done an excellent job in meeting city problems during their terms of unselfish public service.) H. M. L., Jr.

THE CHAMP!

Day in and day out — through cold, heat or drought — she fulfills her service to man. Producer of milk, our most economical and most nearly perfect food, and all dairy products, she accounts for one-fourth of the nation's diet. 800,000 strong in California, she and her health-mates lead all forty-eight states in production per cow — a tremendous asset to the health and well-being of every Californian.

Machine for Handling the Invisible



HARMARVILLE, PA.— Particles invisible to the naked eye are handled by this wizard-like machine of modern science, called the micro-manipulator. The hand lever operates a hydromatic drive directing probes, rakes and shovels so tiny they work within a drop of water as would ordinary instruments in a beaker or test tube. A humidified cell prevents evaporation of the minute sample beneath the microscope lens. Photo was taken at Gulf Oil's micro-laboratory where research into the infinitely small is speeding progress toward meeting the world's demands for oil.

Veterans News

Veterans attending colleges and universities under the G-I Bill must obtain supplemental certificates of eligibility from Veterans Administration of they plan to enroll in a new school this summer or next fall.

The certificates should be requested from the VA regional office at least 30 days before the date the term opens at the new school. Advance requests will help speed prompt payment of subsistence allowances after the start of the new term.

Supplemental certificates to the original certificate of eligibility issued by VA are necessary only when a veteran changes from one school or training establishment to another.

Veterans who will attend a different school this summer from the one in which they are now enrolled should apply immediately for their new certificates. If they will not enter the new school until the fall term, they may wait until later on this summer.

Those veterans changing schools for the summer term and planning to return to their present institution next fall certificate to enable them to re-enter their present school at that time.

The veteran's full name, correct address, VA claim number and present training establishment should be included in any request for new certificates.

QUESTION: May I work while I am enrolled for rehabilitation and training under Public Law 16?

ANSWER: A disabled veteran, while pursuing vocational rehabilitation training, should not engage in employment except with aproval of the training officer, and in cases of serious disability, only as aproved by medical authority.

QUESTION: I am a World Wer II veteran and plan to go to school under the G-I Bill for the first time next fall. When should I arrange for my entrance into school?

ANSWER: You should arrange for your entrance into college or other institution of learning at the earliest possible moment.

Atlas 46 Yields Five Bushels More Per Acre

DAVIS: Atlas 46 barley, resistant to powdery mildew and scald, has outyielded common Atlas which is affected by these two diseases by five bushels per acre.

This announcement came recently from University of California College of Agriculture agronomists at Davis where the new variety was produced. It is expected to replace Atlas which is now a leading variety, they said. Seed was available to growers last fall.

In 13 nurseries where mildew infection was severe, Atlas 46 produced a 16 percent larger yield than common Atlas, University agronomists disclosed. In 19 lo cations where there was no mildew, there was no difference in yield.

The yield differences were caused by shorter heads and fewer kernels per head which resulted from early infection, they explained. Growers have never fully appreciated such losses because they do not show up at harvest time.

At present, Dr. Fred N. Briggs, co-producer of Atlas 46, is attempting to add resistance to net blotch, a third serious barley disease, to the Atlas 46 variety.

QUESTION: What benefits, other than subsistence allowance, is a veteran entitled to while pursuing a course of instruction under the G.I. Bill? Veterans Administration will pay for his tuition, books, supplies, fees, and other authorized expenses within certain limitations.

QUESTON: May I take graduate work under the Servicemen's Readjustment Act?

ANSWER: Yes, if eligible, you may take graduate work under the Servicemen's Readjustment Act (G-I Bill).

Summer Dance Classes Now Being Enrolled

Viola La Verne Aronson announces that Imperial School of the Dance is now enrolling students for beginners, intermediate, advanced and professional students.

Imperial School uses combination Russian, French and Italian technique.

Her training was with the finest schools in New York and Chicago and spent 12 years on the stage.

Classes will be held at the I. O. O. F. Hall in Nevada City Friday mornings, and at Serra Hall in Grass Valley Saturday morning and afternoon.

Invite your friends to visit Nevada County.

Woman Dies In Childbirth

GRASS VALLEY: Mrs. Gena Romeo, wife of Guiseppe Romeo, a rancher on the Grass Valley-Auburn Highway, died Sunday afternoon in a local hospital while giving birth to a child. The infant, a girl, died with her.

The Romeo family owned the farm adjacent to Maben dairy [illegible] place Tuesday evening in Myers Mortuary Chapel. Funeral services were held Wednesday in St. Patrick's Cathblic Church at 10 A. M. Interment was in the Catholic Cemetery.

Labrador, most easterly point of the American continent, has a population around 4,700

MOTOR REPAIRS

When repairing motors of automobiles which have ben operated for considerable mileage, it is more economical to have a thorough overhaul while the motor is disassembled, rather than to make only the immediately necessary repairs, advises the California State Automobile Association.

OUT OF CONTROL

Many a traffic accident has been ascribed to the car going out of control when actually it was the driver who was out of control, points out the California State Automobile Association, urging motorists to keep alert, stay sober, and be prepared for an emergency in traffic.

Betsy Ross, maker of the first American flag, was an upholsterer and carpet maker.

KEEP THERMOSTAT

Motorists are advised by the California State Automobile Association not to discard the thermostate from the engine's cooling system. The thermostat is installed to maintain high engine efficiency by controlling operating temperature. A cold operating engine wastes fuel and does not develop maximum power.

The Clarendon Press is the printing office of Oxford University.

DEFECTIVE DRIVERS

Defective driving rather than defective cars caused most of last year's traffic accidents, points out the California State Automobile Association, which calls attention to the fact that more than 90 per cent of all automobile accidents last year involved cars with no apparent mechanical defects.

Kansas City, Missouri, boasts one of the largest railroad stations in the country.

CHECK RADIATOR HOSE

Water leaks are more common at the radiator hose than elsewhere in the automobile cooling system, points out the California State Automobile Association.

BEYOND REPAIR

Everybody makes mistakes, most of which can be repaired, but there's a terrible finality in the mistakes of many automobile drivers, points out the California State Automobile Association.

DRIVING IN FOG

Fast driving in fog is always dangerous, and that includes the mental fog of the driver who is excessively fatigued, says the California State Automobile Association.

COMMON DENOMINATOR

Among good automoible drivers the common denominator is common sense, says the California State Automobile Association.

BUILD NEVADA COUNTY

Passenger Cars To Set New Mileage Record

American motorists will set a new all-time high record this this year for passenger car mileage, predicts the California State Automobile Association.

Basing its forecast on data assembled by the American Automobile Association in a nationwide survey, the CSAA estimates that motorists will travel about 315 billion vehicle-miles in 1948 as compared with 293 billion miles last year.

Since automobiles on their daily trips carry an average of 2.4 persons, the CSMAA state, this will mean about 756 billion passenger miles. Or the total automobile passenger mileage, about 55 per cent will be for essential purposes, such as driving to work, to school, on shopping trips, etc.

The AAA figures were compiled in order to gauge indicated demand for motor fuel by passenger cars during the year. As a result of the survey, it is now estimated motorists will need about 21 billion gallons of gasoline this year, an increase of about 7.6 per cent over 1948 requirements.

THE - Diary of a 49'er

FROM THE BOOK EDITED BY C. L. CANFIELD

As Pard don't need me I am going to lay off for a week and loaf. We want another horse, and I will try and pick up a bronc somewhere. Got a long letter from home yesterday, which I answered last night. Mother's health is better and the old folks are taking it easy. I guess it is all up between Hetty and me. Dad says she does not visit them any more and she is telling everybody that she has given me the mitten. All right, I won't contradict her, and if Marie should come back this fall there won't be any strings on me. If, by any chance, I should marry a Frenchwoman, what a buzz there will be in old Norfolk. A couple of the Saleratus Ranch boys were over to see me this afternoon. They are curious about our river scheme but have not much faith in it. I hear there are two other companies who are going into the same sort of mining on the river above Rose's Bar. The weather has been blistering hot for the past ten days and the air is full of smoke from mountain fires. The dry needles burn like tinder. An old dead sugar pine over on the mountain caught fire last night, and it was a great sight to see it burn. The flames shot up in the air at least four hundred feet and although it was two miles away I could hear the crackling and roaring plainly. This is a great timber country. There are several kinds of pines, but what they call the sugar pine is the finest of the lot. Some of them are twelve feet in diameter and two hundred and fifty feet high. It seems a pity there should not be some use for it. There is a sawmill at Grass Valley, which is kept busy turning out lumber for houses for the towns round-about, and what little the miners need for boxes, and another one up on Deer Creek, just started, but it doesn't look as if there was demand enough to keep two of them going. Twenty sawmills could not use up the supply in a thousand years.*

*And yet fifty years have almost deforested the foothills.

AUGUST 25, 1951—I have lazed around all the week between the cabin and town. I picked up a pretty good mustang in Nevada, paid eighty dollars for him.

Double Ring Rites Unite Dorothy Hosking, Wm. Jenkins

GRASS VALLEY: Miss Dorothy Hosking was married to William D. Jenkins in the Methodist Church, Sunday afternoon by the pastor, Rev. Donald Getty. The ritual was a double ring affair.

The bride was given in marriage by her father, Philip A. Hosking, and was attended by Carol Gregory of Richmond. Thomas Hosking, the bride's brother, was best man. Ushers were James Dale, Ralph Wetmore and Donald Hosking.

A reception was held in the bride's home with the refreshment table centered with a bride's cake made by her mother, according to an old family recipe. On their return from their honeymoon the happy couple will reside on Bank Street.

-:- PERSONALS -:-

NEVADA CITY: Mrs. James Christie, and daughter, Jane, who have been visiting friends here during the past week, on Wednesday returned to their home in Pasadena.

Mrs. Margaret Madden and Miss Theresa O'Connor of Birchville, were visitors in Nevada City early this week.

Mr. and Mrs. Lloyd Veale and little son, Dick, have gone to Santa Cruz for a vacation.

Mrs. Alvin Walthers of Sacramento were the guess of Mrs. Arthur Hoge on Monday.

Mrs. Horace Curnow has returned from a visit with her daughter, Mrs. Willard Winder and family in Riverside.

Mrs. Byron Brock, accompanied by her sister, Mrs. Helen Coffee, on Monday went to Napa to be present at a meeting of Daughters of the American Revolution. They will be joined in Napa by another sister, Mrs. Oliver S. Beatty.

POSSIBLE $75,000 ARMORY PLANNED

GRASS VALLEY: Staff Sergeant John Fesmire of the Califoria National Guard, addressing the Rotary Club, stated that construction of a National Guard armory in Grass Valley at a cost of $75,000 was a possibility.

He said that of the 50 members of the local company, all but three were Grass Valley men. He contended that the location of the armory should be in Grass Valley. He mentioned Watt Park as a desirable location for the building. Equipment valued at $52,000 at present is located in Nevada City. He stated that the annual payroll associated with an armory will amount to about $50,000 annually.

A GOOD INVESTMENT

Highway courtesy — consideration for other drivers and for pedestrians — is an investment which pays handsome dividends in traffic safety, says the California State Automobile Association.

BIRTH

CRENSHAW—In Nevada City, Nevada County, June 2, 1948, to Mr. and Mrs. Phil W. Crenshaw of Grass Valley, a son.

*

Invite your friends to visit Nevada County.

BRIDGES IN TROUBLE AGAIN

NEVADA CITY: Robert E. Bridges, who, early in May, along with Stephen Fairchild, both of North San Juan, paid a fine of $100 and was given a suspended sentence of three months in the county jail, was back in jail again yesterday.

The two men, according to testimony at the trial of Fairchild, took pot shots at each other with rifles, and were charged with disturbing the peace.

This time a woman, Mrs. Eleanor Kent, resident of North San Juan, complains that Bridges tried to break into her house Tuesday night. He was arraigned before Justice of the Peace George Gildersleeve, pleaded not guilty and asked for a jury trial. His bail was set at $500 which up to a late hour he had not raised.

Justice of the Peace Gildersleeve stated that if he had pleaded guilty he would automatically have begun serving the three months suspended sentence.

BIDS STUDIED FOR 3-ROOM ANNEX TO HENNESSY SCHOOL

GRASS VALLEY: The Grass Valley Board of education have accepted for study two of the four bids received for construction of the three-room annex to the James S. Hennessy School.

The two bids are those of W. E. Frye, whose bid was $48,743.31, and Paul Jenks, $57,211.39. Both bidders are Grass Valley contractors.

The Goodenough Construction Company of Sacramento, bidding $62,480 and of George S. Latin, Grass Valley, bidding $64,100 were ordered returned.

The board expects that elementary classes will be augmented 100 more students than this year when the new school year opens in the Fall, and the high school by about 50 new students.

Mrs. Wilde Steuber of Rough and Ready was employed as supervisor for the high school cafeteria.

KERRIN HEADS LIONS CLUB

NEVADA CITY: Dr. Cyril N. Kerrin will take up the gavel as president of the Nevada City Lions Club this evening, succeeding William French whose term expires.

Other officers to be installed at the Deer Creek Inn dinner meeting are William E. Mullis, vice president; William Gibson, secretary-treasurer; Allen Capps, song leader; Clifford Jacobson, tail twister; Dr. Walter Mullis, Charles Kitts, and Onda Smith, trustees for one year.

*

THETA RHOS MEET

NEVADA CITY: The Theta Rho Girls met last Thursday evening with the Rebekahs' and Odd Fellows in I. O. O. F. Hall. Mothers of the girls were specially invited to attend.

*

It is estimated that continental United States will use about 7,800,000 short tons of sugar during the calendar year 1948.

TAYLORVILLE GROUP SEEKS CITY WATER

GRASS VALLEY: A delegation of residents of Taylorville, on the western border of Grass Valley, attended the meeting of the City Council Tuesday night and asked the city to help them to get city water. They said they did not wish to buy Nevada Irrigation District water. C. W. Moore headed the delegation.

The city council stated that it had neither the money nor the authority to extend the city mains into the area. It was estimated the cost would be $2,500. The council suggested that City Engineer Carlos McGuire and Superintendent of Public Utilities Kenneth Mauel make a survey and report to the city council in a week. It was believed that by using the high pressure line of the Empire Star Mines, a solution to the difficulties might be found.

*

The use of advertising dates back to ancient Greece and Rome.

TAILINGS

By Jim Towne

PRECEDENT. Jeannette Rankin was born 68 years ago today in Missoula, Montana. In 1917 she was elected to Congress as representative-at-large from Montana. The first woman ever seated in that body, she set a precedent for women in politics.

* * *

TRIBUTE. Too often we acknowledge a worthy citizen's efforts after that person has passed on. How empty is the praise! It is more fitting that we bring our testimonials of admiration and regard to the living. We admit being somewhat of a sentimentalist, I, Myself and Me, and would like to gather all of the June roses in the county and place them at the feet of Doctor C. W. Chapman and Miss Gertrude Goyne. The man who has worked for 30 years to put Nevada County on the historical map. The woman who gave 56 precious years to the guiding and instructing the county's future citizens.

* * *

EYESIGHT. A priceless possession. The acme of generosity is to give of sight that the blind may see. A Grass Valley high school girl is possessed of that quality. The loss of her eye will be lessened in the knowledge that a woman's sightless one will again have vision.

* * *

ADVICE. Archie, the turtle, has stopped by to remark: "The Quakers had a saying for the victims of June's love and roses. 'Thee shouldst marry for love, but it is just as easy to love where there is money.'"

* * *

Fortune, men say, doth give
too much to many,
But yet she never gave
enough to any.
Sir John Harrington

*

Cocaine is obtained from the leaves of the cocoa shrub which is native to Peru and Bolivia.

She's Dad's Day Queen

Every daughter is a queen in the eyes of her Dad. Here's Shirley Peters ready to maintain that position. She shopped early for her Father's Day gift. With such a cute wink, her dad should be extra pleased with his present. Father's Day this year is June 20. Local merchants are displaying many attractive suggestions for gifts to give "Daddy."

Teacher's Pet

YAKIMA, WASH.—Jerry Syrcle, 6, shouldn't have any trouble winning favor after polishing this apple for his teacher, Verna Eastman. Of course, big apples from Washington state don't grow quite as large as the trick camera makes this one appear. It is just symbolic of the Yakima apple country's bumper crop. And Jerry represents thousands of small boys who will be bringing Washington apples to their teachers all over America.

Scalloped Ginger Snaps

Crisp ginger cookies are topped with bright fruit jam centered in confectioners' sugar icing. When served with a fresh fruit cup, the cookies are an ideal dessert for hot weather meals.

Take your "spring tonic" of molasses in the form of crisp scalloped ginger snaps—those all-time cookie favorites. Add to the food value of the molasses the iron, protein and B-vitamins in enriched flour and the cookies total up to splendid nutrition as well as prize-winning taste.

This is a dual-purpose recipe since the cookie dough can be mixed, rolled and baked immediately or chilled before slicing for the oven. If the dough is to be used at once, roll very thin on a lightly floured board. If you have a pastry cloth, rub flour into it lightly; you'll find that the dough rolls easily to the papery thinness that insures crisp cookies. Do not pick up any more excess flour than required to roll the dough without sticking.

To save the dough for future baking, shape into a roll, wrap in waxed paper and store in the refrigerator. Wrapped in freezer paper, the cookie dough can be frozen in the home freezer or food locker for use whenever convenient.

Ginger Snaps

- 2 cups sifted enriched flour
- ¾ cup sugar
- 1 teaspoon soda
- ½ teaspoon salt
- ½ teaspoon cinnamon
- 3 teaspoons ginger
- ½ cup dry bread crumbs
- ½ cup molasses
- ½ cup melted shortening
- 2 tablespoons ice water

Sift together flour, sugar, soda, salt, cinnamon and ginger. Add crumbs, molasses, shortening and water. Mix together thoroughly. Roll thin on lightly floured board and cut into desired shapes with cookie cutter. Bake on unreased cookie sheet in moderate oven (375 degrees F.) 10 minutes. (Dough may be shaped in a roll, wrapped in waxed paper and stored in refrigerator; slice thin for baking.)

Yield: About 85 two-inch cookies.

U. C. To Build Giant New Atom Smasher

BERKELEY: The United States Atomic Energy Commission has announced that it will finance the construction of the world's largest and most powerful atom-smasher, a 110-foot cyclotron, at the Radiation Laboratory of the University of California.

This machine is far larger than any such machine now in existence or any other now planned for construction. Construction will take about five years, and the total cost will be about $9,000,000.

In announcing the Commission's decision to finance the construction, David E. Lilienthal, chairman, said:

"In a sense, this is notice to the world of the intention of the people of the United States to remain preeminent in the atomic sciences and in all fundamental science."

"We are deeply grateful for this new oportunity to carry forward atomic investigations under the auspices of the Commission," said Dr. Ernest O. Lawrence, radiation laboratory director, "and we anticipate that there will be interesting developments in the years ahead.'

Lawrence revealed that the new machine, originally called a bevatron when it was first announced last fall, will accelerate protons to energies of six billion electron volts. By comparison, the 184-inch cyclotron, at present the world's largest, will accelerate protons to 350,000,000 electron volts.

The 110-foot cyclotron, both Lawrence and Lilienthal agreed, "will be a major tool for basic research in the properties of atomic nuclei. New knowledge in this field is the foundation of progress in the release and application of nuclear energy."

THE OPEN DOOR

The motorist who opens the car door on the left into a traffic lane may find that he has opened the door to the emergency hospital, says the California State Automobile Association.

TIRE BLOWOUTS

Driving at moderate speed on hot days to avoid a tire blowout is recommended by the California State Automobile Association. High speed and overloading causes rapid flexing of the tire, builds up internal heat, and is often thhe direct cause of an avoidable blow-out.

Joplin, Missouri, is located in a rich mining district, that produces lead, zinc and coal.

The Diary of a 49'er

(Continued from Page 3)

and the first time I rode him I wished mustangs had never been invented. He bucked me all over Main Street. The town turned out to see the fun and I could hear them yell: "Go it, Yank; go it broncho!" but I stuck to him until I got up on the trail and then I got off and made a few remarks so hot that they burned up the chapparal. Gracious, my backbone still aches! Queer thing that when I led him up on the flat and got on again he loped off as steady as a plow horse.

While I was in town Thursday the crowd tied up three men to the bridge over Deer Creek and gave them twenty-five lashes apiece, on the bare back, then turned them loose and banished them from the place with a threat to hang them if they came back. All three were petty thieves, who had been caught stealing. I could not help pitying the poor devils. Two of them howled for mercy, but one gritted his teeth and cursed the crowd with every stroke. There were but a few miners there and it would be hard to get together a worse lot of savages than the ones who stood around gloating over the wretches. The chances are that nine out of ten of the lookers-on, if they got their deserts, deserved the same sort of punishment that was being dealt out to the culprits. The trouble is that most of the men are too ready to set themselves as judges and, swayed by their passions, inflict penalties, even to sentences of death, on insufficient evidence. Only three weeks ago the mob hung a Chilean at Rose's Bar for horse stealing and the next day the horse he was accused of stealing was found in the hills above French Corral.

We have packed our pots, kettles, tin plates and Dutch oven down to the river camp, and I will nail up the old place and join the crowd in the morning. I sort of hate to get through with our new enterprise. Looking back on the year past, I have had a pretty good time on the creek and have been more than lucky. There is no better companion than Pard, we have made money, our neighbors are mostly good fellows and, while it has been hard work and rough living, we have had health and appetites that would breed a famine. I have spent the day writing letters, one to Marie and a long one home to the folks. Won't have much time for writing for the next month or two.

(To be continued)

HIGHWAY CODES

Two codes govern the conduct of careful automobile drivers: The Vehicle Code and the Code of Sportsmanlike Driving, points out the California State Automobile Association. Observance of both codes prevents traffic accidents.

Land Appraisal Course At Davis Scheduled

DAVIS: A case study course in The Appraisal of Farm Lands will be held on the Davis campus of the University of California, June 21 to July 3 by the American Institute of Real Estate Appraisers, in co-operation with the University of California College of Agriculture. The course is sponsored by the farm lands division of the California Real Estate Association, the California chapter of the Institute of Farm Brokers, and the Southern California chapters of the American Institute of Real Estate Appraisers.

Enrollment is open to adults whose academic training or practical experience is equivalent to high school graduation. No credit is offered by the University for completion of the course, but the American Institute does give credit toward the Member of the American Institute designation to those who have assing grades. Enrollment will be on Sunday, June 20, with classes beginning Monday for twelve days.

The purpose of the course is to give training in farm land appraisals, in the analysis of soils, farm layout, crop programs and farm improvement systems. In addition other purposes are outlined for the 36-lecture course and the comprehensive appraisal report required.

LACK OF CO-OPERATION DAMPS FOURTH

NEVADA CITY: Only eight members and officers appeared Tuesday night at the meeting of the Nevada City Chamber of Commerce at which plans for the Fourth of July celebration were to be discussed.

The chamber officers decided to advertise another meeting of that body for Friday night, and if the members show a lack of interest the plans for the Fourth will be withdrawn and money received will be refunded to who gave it.

Paul Bergeman, the president said: "A great deal of work has already been done, but a willing few cannot be expected to carry the burden of so extensive a celebration without some help. Many people benefit from the Celebration of the Fourth in Nevada City, which in the past has won an admirable name for its fine Fourth and its hospitality. This year just at the tmie when the centennial offers the town a magnificient chance to place itself on the map, no interest is being shown.

* Pictured in front of Hile's Willys new location at South Auburn and Main are: (left to right) Dave Hibert, mechanic, Gary Tressel, mechanic, Frank Hile, owner, Fred Good, office manager, E. Randolph, sales manager, Mitch Painter, salesman, Jack Allen, mechanic, Ed R. Bushman, mechanic.

Come On In, Skinny, The Water's Fine

GRASS VALLEY: The Municipal pool in Memorial Park opened Thursday at 11 o'clock with life guard Bob Hocking in charge. Hocking was hired for the post Tuesday night at a meeting of the Grass Valley City Council. His salary was fixed at $175 a month.

The council voted to replace one of the slides in the children's play ground with a new one. The old one is badly worn.

HILE'S WILLYS

GRASS VALLEY: A leading development in the automotive world here is the rapid rise of Hile's Willys to importance in the local dealership field.

This development is characterized by a steadily growing volume of business and by the recent move to their present location, at South Auburn and Mill. In this place, complete redecoration and modernization of the building, together with the erection of a splendid neon sign, have done much to enhance the appearance of this downtown section of Grass Valley.

Frank Hile is the founder of Hile's Willys. This enterprising young business man was born in Muskegon, Michigan. He went to public schools in Sparta, Michigan, and after graduating from high school there took a technical course in automotive mechanics at Grand Rapids.

Young Hile heeded Horace Greeley's ancient admonition to "Go West!" His first occupation here was most colorful. He was a paint blender in a large automotive concern.

During the war he worked as a tool die maker and machinist in the Bay Area.

Hile was attracted to the Grass Valley area, and, after the war moved here. He entered business as a building contractor in the Cedar Ridge tract.

It was there he became familiar with the excellent qualities of jeeps in many varieties of work. A short time later he bought Staats-Willys, and since then has made steady progress in expanding and developing the business.

A parner in Hile's business is his brother Early, who is coming out from Michigan to head the mechanical department of the business.

C. E. (Randy) Randolph is associated with the Hiles' in the business, and he is head of the sales department. Randolph has been a resident of Grass Valley since November, 1946, when he bought a home on Lloyd Street. His wife, Dorothy, is manager of Ralston's Store in Nevada City.

Randolph was born in Louistown, Montana, in 1902. He graduated from Fergus County high school and spent a year at Montana State College. Since then his business experience has included selling life insurance and various connections with the automobile business. He spent a year in the Navy, during the war, at Dutch Harbor.

Fred Good is office manager of Hile's Willys and Mitch Painter is salesman.

STEAM PRESSURE

Continued operation of an automobile engine after the water in the radiator has reached the boiling point may empty the radiator due to pressure developed from steam, warns the California State Automobile Association.

DEFECTIVE HOSE

Overheating of your cars motor may be caused by defective radiator hose, according to the California State Automobile Association.
